### COSMETIC DENTISTRY A New Unique Approach to Dental Solutions

ADVERTISER FEATURE

Over the past few years, India has seen a rising trend towards cosmetic makeovers, weight reduction awareness, physical and mental wellness... somewhere along the way people are now more aware of their looks and the importance to present a confident pleasing

examples of cases covered under the topic of cosmetic rehabilitation, the extent of which can vary from person to person .

Not always does one have to undergo Surgical or Orthodontic procedures to achieve an

exterior in addition to the well being of the inner self.

With this transformation in thought, dentistry has also evolved considerably in being able to offer various treatment options to patients seeking to correct and maintain their oral condition. Minor imperfections, mal alignment of teeth, trauma involving teeth, decayed and discolored teeth are a few

aesthetic result. Cosmetic dentistry is a quicker and sometimes more stable way of accomplishing the desired results too (of course there are certain parameters which will need to be met). In cases which qualify, imperfections in teeth can be corrected by a combination of treatment with intentional root canals, crowns and veneers. In cases where discoloration has occurred
